- DLF Shuttle Buses
- Taxi Stand
- Ola/Uber also operational in the area

Increasing connectivity. The world comes closer.

With enhanced infrastructure on all fronts encircling DLF Gardencity, the location is poised to see rapid growth in the future. Listed below are a few upcoming developments.

Southern Peripheral Road (SPR)

This strategic 16 km long road originating from Gurugram–Faridabad Road near Ghata and meeting NH8 near Kherki Daula has considerably facilitated access to South Delhi, Golf Course Road, Faridabad.

Northern Peripheral Road (NPR)

Also known as the Dwarka Expressway connecting Dwarka with National Highway 8 at Kherki Daula. This route is expected to be completed in 2018, though a significant part of it is already operational. Planned as an alternate link road between Delhi and Gurugram, it is slated to ease traffic on Delhi–Gurugram Highway.

Kundli Manesar Palwal Expressway (KMP Expressway)

Expected to be ready by December 2017, KMP Expressway will pass through Gurugram, Palwal, Mewat and Sonapat districts. It will largely facilitate vehicular traffic coming from northern India on NH-1 and going towards Rajasthan and Gujarat, connecting NH-8 at Manesar. Simultaneously it will connect with NH-2 at Palwal for those driving towards central and southern India.

Hero Honda Chowk Flyover

Opened to traffic on 24th July 2017, it has significantly contributed in reducing congestion on NH8 bringing Central Gurugram closer than ever.

Kherki Daula Toll

In a large fillip to connectivity, Kherki Daula Toll is expected to be shifted beyond the NSG complex in Manesar, boosting connectivity to New Gurugram from Gurugram and Delhi, thereby reducing commuting time and enhancing connectivity to New Gurugram.

An elite family-centric community lifestyle.

DLF Gardencity, with over 1500 families from diverse cultures and backgrounds, is all about family-centric community living. In fact all our home owners celebrate all festivals and occasions here almost as if they were just one big family. We take pride in the fact that our homes are the building blocks of an ideal community and not just handsome edifices of brick and mortar. This is why more and more people are choosing a lifestyle at DLF and our family is ever-growing.

Safety first, ensured by our security personnel.

In DLF Gardencity, safety is always a top priority. That's why we have state-of-the-art technology, including round the clock security at the main gate and tower entrances besides patrolling in the premises by our Quick Reaction Team (QRT) that is well-trained and equipped to deal with any emergencies. The residential complexes are also equipped with boom barriers, electronic access control at tower and basement entrances and CCTV facility. All apartments have intercoms, which are connected to the control room.

Luxury has a place in your life.

Regal Gardens is located in the heart of Gardencity. Luxury apartments that have been designed to complement your lifestyle. The entrance halls are double height and air-conditioned.

*Actual Image

*Indicative Image

Luxury has a place inside your home.

Finished with imported marble, the living room is a sight to behold. Each square foot has been utilised to the maximum by the renowned architect Hafeez Contractor. Step into the balcony and you get a stunning view of the large central greens in most apartments.

*Indicative Image

Luxury has a place in your inner sanctum.

It is the quietest corner of your house. And yet, air and sunlight jostle with each other for your attention. All master bedrooms have balconies. And most of them have a beautiful view of the large central garden.

*Actual Image

Luxury has a place amidst the verdant greens.

At Regal Gardens, the focus was to create a green space that would define your lifestyle and stand the test of time. As more complexes get built in Gardencity, these verdant greens will always remain a distinctive feature.

Luxury has a place at the Regal Club

The soul of the complex is undoubtedly, the 10,000 sq. ft. sunken club. The club has been sunken partly to give the landscape more breathing space. Which means, it sits like a shining jewel amidst the crown that's the beautiful landscape.
